TECHNICAL DATA SHEET CONTACT CLEANER

Ref. : 38200

1. GENERAL DESCRIPTION

Cleaning agent for electrical contacts, with special additives for the dissolving of corrosion products.

2. FEATURES

Contact cleaner is a contact cleaning product which can be used to restore corroded electrical contacts. In aerosol form it is particularly suitable for service applications, it can be dispensed economically and accurately (with special spray tube). In addition to the corrosion-dissolving components, the spray contains a solvent mixture which also removes greasy or resinous residues.

- Free of caustic materials.
- Aerosols use butan-propane propellant to maintain high pressure to the very last fluid in the can.

3. DIRECTIONS

- For hard to reach areas, use extension tube.
- Use with adequate ventilation. Do not use on energized equipment.
- Do not use on running engine.
- For best results, apply to dry, cold surfaces (do not apply on hot parts).

4. PACKAGING

aerosol : 12 x 200 ml

Bar code Nr. 8028687382006
